- Salesforce Ranger

High School GBHS Etoug-Ebe Yaounde
From September 2017 to August 2020

- GCE A/L (GBHS Etoug-EBE Yaounde)
- GCE O/L (GBHS Ekorozok Yaounde)

Professional Experience

FullStack Web Developer Neuralearn Yaounde
Since April 2025

- Built a production-ready educational platform using **Next.js** and **Go**, creating a system that automatically converts video data into structured learning modules.
- Developed **REST APIs** and microservices to connect the AI processing engine with the user frontend, ensuring the app runs smoothly under load.
- Managed the **Azure** cloud infrastructure and set up CI/CD pipelines. This allowed the team to release updates and fix bugs quickly without downtime.
- Debugged and optimized backend performance, rewriting inefficient code to reduce data processing time by 30%.
- Wrote technical documentation for the API endpoints to help other team members understand the system architecture.

Salesforce Developer And Administrator Clouds Architects Yaoundé
From March 2021 to September 2023

- Designed automated workflows using **Apex** and Flow, which directly reduced the manual work needed for client operations.
- Built custom integrations to connect the CRM with external payment platforms, ensuring data was always synchronized in real-time.
- Developed custom user interfaces using **LWC (Lightning Web Components)** to make internal tools easier to use, significantly speeding up data entry for staff.
- Managed user security and access controls, ensuring sensitive client data remained secure.

Professional Experience

Personal Projects Personal Yaoundé
Since August 2019

- **Code Context Extractor (VS Code Extension):** Built a developer tool to automate the context-gathering process for LLMs. Implemented smart binary exclusion algorithms to filter noise, demonstrating a deep understanding of file systems and automation logic.

  My GitHub: https://github.com/Buezeth
- **Game Developement:** Worked on several personal game projects using Unity Engine and C#

Certifications

Salesforce
- Certified Salesforce Developer
- Certified Salesforce Associate
